The Buck Act and The United States of America.

A map of the United States of America. It includes the 50 sovereign and independent states who are freely associated together in a union. It does NOT include the "District of Columbia," which was created by the Constitution of the Union as the legal home of the "federal" government. That government was intended to be a "servant" to the Union States, not their "Master!"

In order for the Federal Government to tax a Citizen of one of the several states, they had to create a contractual nexus. This contractual nexus is called "Social Security." The Federal government always does everything according to principles of laws.

In 1935, the federal government instituted Social Security. The Social Security Board then, created 10 Social Security Districts creating a "Federal Area" which covered the several states like an overlay.

In 1939, the federal government instituted the "Public Salary Tax Act of 1939," which is a municipal law of the District of Columbia, taxing all Federal and State government employees and those who live and work in any "Federal area."

Now, the government knows it cannot tax those Citizens who live and work outside the territorial jurisdiction of Article I, Section 8, Clause 17, or Article IV, Section 3, Clause 2.

So in 1940, Congress passed the "Buck Act" 4 U.S.C.S. 104-113. In Section 110(e), this Act allowed any department of the federal government to create a "Federal Area" for imposition of the Public Salary Tax Act of 1939, the imposition of this tax is at 4 U.S.C.S. section 111, and the rest of the taxing law is in Title 26, The Internal Revenue Code. The Social Security Board had already created an overlay of a "Federal Area."

As a result, the Federal Government created Federal "States" which are exactly like the Sovereign States and occupies the same territory and boundaries, but whose names are capitalized versions of the Sovereign States. (Remember that Proper Names and Proper Nouns in the English language have only the first letter Capitalized.) For example, the Federal "State" of ILLINOIS is overlaid upon the Sovereign State of Illinois. Further, it is designated by the Federal abbreviation of "IL", instead of the Sovereign State abbreviation of "Ill." So too is Arizona designated "AZ" instead of the lawful abbreviation of "Ariz. ", "CA" instead of "Calif.", etc. If you use a two-letter CAPITALIZED abbreviation, you are declaring that the location is under the jurisdiction of the "federal" government instead of the powers of the "Sovereign" state.

As a result of creating these "shadow" States, the Federal government assumes that every area is a "Federal Area," and that the Citizens therein are "Federal" citizens.

4 U.S.C.S. section 110(d). "The term `State' includes any Territory or possession of the United States." 4 U.S.C.S. section 110(e). "The term Federal area means any lands or premises held or acquired by or for the use of the United States or any department, establishment, or agency of the United States; any federal area, or any part thereof, which is located within the exterior boundaries of any State, shall be deemed to be a Federal area located within such State."
There is no reasonable doubt that the federal "State" is imposing directly an excise tax under the provisions of 4 U.S.C.S. Section 105 which states in pertinent part:

"Section 105. State and so forth, taxation affecting Federal areas; sales and use tax" "(a) No person shall be relieved from liability for payment of, collection of, or accounting for any sales or use tax levied by any State, or by any duly constituted taxing authority therein, having jurisdiction to levy such tax, on the ground that the sale or use, with respect to which tax is levied, occurred in whole or in part within a Federal area; and such State or taxing authority shall have full jurisdiction and power to levy and collect any such tax in any Federal area, within such State to the same extent and with the same effect as though such area was not a Federal area." "Irrespective of what tax is called by state law, if its purpose is to produce revenue, it is income tax or receipts tax under the Buck Act [4 U.S.C.S. sections 105-110]."Humble Oil & Refining Co. v. Calvert, (1971) 464 SW2d. 170, affd (Tex) 478 SW2d. 926, cert. den. 409 U.S. 967, 34 L.Ed2d. 234, 93 S.Ct. 293

Thus, the question comes up, what is a "Federal area?" A "Federal area" is any area designated by any agency, department, or establishment of the federal government. This includes the Social Security areas designated by the Social Security Administration, any public housing area that has federal funding, a home that has a federal bank loan, a road that has federal funding, and almost everything that the federal government touches through any type of aid. Springfield v. Kenny, (1951 App.) 104 NE2d. 65.

This "Federal area" attaches to anyone who has a social security number or any personal contact with the federal or state governments. Thus, the federal government has usurped Sovereignty of the People and state Sovereignty by creating these federal areas within the boundaries of the states under the authority of the Federal Constitution, Article IV, Section 3, Clause 2, which states:

"2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States, and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State."

Therefore, the U.S. citizens [citizens of the District of Columbia] residing in one of the states of the union, are classified as property and franchises of the federal government as an "individual entity" Wheeling Steel Corp. v. Fox, 298 U.S. 193, 80 L.Ed. 1143, 56 S.Ct. 773.

Under the "Buck Act" 4 U.S.C.S. sections 105-110, the federal government has created a "Federal area" within the boundaries of all the states. This area is similar to any territory that the federal government acquires through purchase or conquest, thereby imposing federal territorial law upon those in this "Federal area." Under federal territorial law as evidenced by the Executive Branch's yellow fringed merchant law flag flying in schools, offices and all courtrooms.

So, when you send mail using the two-letter CAPITAL abbreviation for the state, you are addressing the corporate shadow state created by the Buck Act as an extension of the federal District of Columbia, and you are accepting the jurisdiction of the FEDERAL Government within the borders of the Sovereign States!
Then, to really lock down their control, the federal government created an artificial PERSON to whom they could address all of their demands. This person is Your Name in ALL CAPITAL LETTERS! Whenever you receive a letter from the government addressed in ALL CAPITAL LETTERS (such as "JOHN SMITH" instead of the proper English language "John Smith") they are addressing a legal fiction, a "straw man," whom they assume they OWN.

Since they are going on the assumption that they OWN this "straw man" (which they actually do not -- and you can learn how you can take TITLE to this "straw man") they assume that whatever money comes in to the property ("straw man") belongs to the master (government).

What you are experiencing is an unprecedented GRAB for power by the "federal" government! In fact, Agents of the "federal" government have NO jurisdiction within the borders of these separate and sovereign united States, or over the "straw man" – unless you give it to them!

Notes:

What year was the Buck Act enacted?

What is the codification of the Buck Act?

How does the Buck Act affect you?
